- Be accountable and responsible for own actions and know the content of the Scope of Professional Practice, Code of Professional Conduct, UPMC Beacon Hospital policies, guidelines, competencies relevant to practice.
- Provide nursing care to patients by the use of an individual system of care and working with nursing standards that have been agreed.
- Keep the nurse in charge of the unit aware of any relevant changes which occur.
- Develop an understanding of the specialty and following an induction programme, to eventually be able to assist in all relevant procedures.
- Promote and uphold nursing standards by identifying/recommending changes which will enhance the quality of care.
- Interpret the significance of the patient's clinical observations and record and plan desired changes in care with senior staff.
- Maintain professional confidentiality and ensure that all clinical and legal documents are accurate and legible.

Managerial Responsibilities:

- Monitor all complaints/incidents and inform clinical coordinator of same to enable a full investigation.
- Constant evaluation of standards of patient care, and particularly nursing care within the department.
- Maintain supervision of junior nursing staff during each span of duty providing direction and support as necessary.
- Undertake management experience with the support of mentor or clinical coordinator .
- Adhere to hospital policies and maintain effective links with support services and other departments.
- Assist with the development and maintenance of standards of care and quality assurance programmes.
- Maintain a sound working knowledge of emergency policies including cardiac arrest protocol, fire emergency, control of infection policy, static electricity, explosion hazards.
- Ensure that all staff are aware of the Contingency Plans in the event of a total loss of power, fire and evacuation.

Professional Responsibilities:

- Accept responsibility for own personal/professional development and be aware of current trends and strategies in nursing.
- Manage the total nursing care of patients competently and be responsible for professional actions.
- Display competent knowledge in nursing practice of specialty.
- Promote and uphold nursing standards and identify changes which will enhance the quality of care.
- Help develop a culture conducive to the establishment and maintenance of good staff morale.
- Promote good industrial relations in accordance with personnel policies.

Education and Research:

- Promote a learning environment and encourage professional development.
- Follow current developments in nursing which will increase professional knowledge and skills.
- Identify potential areas for nursing research within speciality which will benefit patient care.
- Be aware of own learning needs and ensure that a learning programme is negotiated with mentor.
- Attend appropriate study days/courses that will promote professional development.
- Participate in own performance review with the clinical coordinator.
- Be able to teach and act as a mentor (after appropriate training) to other nursing staff.
- Participate in the revision of Policies/Guidelines/Competencies.
