

Beacon Hospital

Job Description

Job Title	Senior Pharmacist
Department	Pharmacy
Reports to	Pharmacy Manager
Date	

Overall Purpose of Job

We will provide exceptional patient care in an environment where quality, respect, caring and compassion are at the centre of all we do.

Key Responsibilities and Deliverables

- The supply of medicines and related items as may be required.
- The purchase, storage and supply of all items consistent with quality and value for money.
- The provision of clinical services, including the provision of advice to medical and nursing staff.
- To manage the timely collation and input of all concerning drug usage in the hospital in line with departmental policy.
- The performance of all duties and responsibilities in line with all Pharmacy Department procedures and protocols as well as hospital wide procedures.
- Identify and implement policies and operational processes to the standards of best practice including the development of pharmaceutical services.
- Participate in continuing education and research activities consistent with the post.
- Ensure that work schedules and programmes are created to provide for the most effective and efficient deployment of staff and other resources.
- Lead changes in work, procedures, techniques or technologies having regard to developments in the field of pharmaceutical care and clinical practice.

- Identify defects in supplies and/or equipment. Receive and record details concerning mishaps, investigate and report findings as required to the Pharmacy Manager.
- Liaise closely and co-ordinate service delivery with the other team members to ensure a high level of teamwork between pharmacists and pharmaceutical technicians.
- Ensure that departmental and organisational policies are enforced
- Motivate team members, through the use of agreed goals and objectives.
- Lead and advise the process of developing protocols and guidelines designed to deliver optimal and economical patient care.
- Ensure best practice and compliance with agreed clinical guidelines
- Ensure that the medication use process is measured, analysed and optimised by undertaking regular clinical audit.
- Ensure that all departmental and hospital wide Health and Safety protocols and procedures are adhered to and all areas of non-compliance are promptly addressed.
- To provide cover to the Dispensary, Clinical, Medicines Information and Aseptic services as instructed from time to time by the Pharmacy manager.
- Must have working or technical knowledge of new technologies including automation.
- Performance of such other duties appropriate to the post, including on call and the participation in extended opening rosters including weekend opening and other such services that may from time to time be introduced by the Director of Pharmacy Services.

Note: These duties and responsibilities are a reflection of the present service requirements and may be subject to review and amendment to meet the changing needs of the Hospital.
